

# TextArt<sup>TM</sup> Features

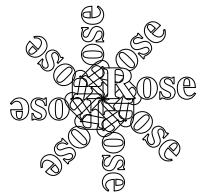

## Text Placement

- Place text in a straight line, around a circle, in an upper or lower arc, or in a rose
- Rotate text
- Control individual letter placement with track and pair kerning

## Text transformations

- Choose font style and size
- **TextArt** works with all NeXT provided fonts and additional Adobe fonts (not included)
- Shade text and background with precise gray scale control
- Scale text vertically and horizontally
- Outline text with control over:
  - outline width
  - outline gray scale
- Fill text, with solid or line fill, horizontal, vertical or radical fill patterns, variable number of steps
- Make multiple copies, controlling the number of copies, the starting and ending gray scales, and the copy location
- Skew text
- Add a shadow, controlling shadow length, shadow direction and shadow gray scale
